Product Description

Gravely AXIS™ 200DTN Utility Loader - 950011

This 2,600lb narrow-tracked multi-tool machine is powered by a durable Kubota D1105 25 HP diesel engine, running at a top speed of 3.5 MPH. With an overall operating height of 85in, the AXIS 200DTN has the ability to dump at a height of 48.8in while at a 45-degree angle. The 489lbs of lifting capacity with a tipping capacity of 1,397lbs, allows this compact utility loader to maximize your crew's time in the field when you have a large job to do in a narrow work area.
