Product Description

Fence Post Installation Made Fast & Easy!

Digging holes for fence posts or for pilings can be a frustrating, back-breaking job. Not anymore! With our DR Post Hole Digger, you can drill holes almost as fast as you can drive your tractor from one site to the next. Your tractor's 3-Point Hitch hydraulics raise and lower the auger, while the cast-iron gearbox reduces the auger speed to 540 rpm for smooth, steady drilling.

The DR Post Hole Digger is a commercial grade tool. Designed for Category 1 or 2 tractors from 20HP to 45HP, the DR includes a long-reach PTO shaft and a 6-spline, quick-release tractor yoke. The driveline is protected by a 5/16" shear bolt.

Product Summary

- Category 1 or 2 tractors, 20-45 HP
 - PTO shaft included
 - Standard 3-point connection
