

Dr Power Heavy-Duty Drag Harrow

Use our heavy-duty DR Drag Harrow to level garden plots and break up clods of soil. Gnarly hooks and tines tear through any weeds and roots, break up compacted surfaces, and get your garden or food plot prepped for seeding.

Product Description

DR 48" Drag Harrow

Great for leveling garden plots and breaking up clods of soil. Dragged across a pasture it can break up manure mounds, weeds, and fill in holes from livestock. The tow bar can be moved to the opposite end of the drag for a less aggressive position (where the teeth are dragging more than digging). And by flipping the drag over you get the lowest impact, good for lighter tasks like redistributing gravel on a driveway surface.

Product Summary

- Perfect for leveling plots, breaking up soil, and leveling pastures
 - 7 horizontal rows of tines, 69 heavy-duty tines with 10 hooks
 - Tow bar can be moved to the opposite end for less aggressive dragging or even flipped over
 - Measures 4' x 4'
