Product Description

Belt Drive for Easy Maintenance & Long Life

The DR PRO MAX3800 features a heavy-duty belt drive to promote extra long pump life, making it a great choice for the professional or anyone who will use it frequently and needs maximum cleaning power.

The triplex pump is rebuildable, so this is a machine you can count on for years of reliable service. The compact, lightweight design makes for easy mobility around the jobsite.

Product Summary

- 3800 PSI, 3.2 GPM
- DR OHV Engine (302cc)
- Triplex AR Pump (rebuildable)
- Ergonomic spray gun
- 50' Steel Reinforced Hose
- Pneumatic tires (10" x 4")

Warranty Coverage

- Machine: 3 years residential; 90 days commercial
- Engine: 3 years residential; 90 days commercial

Features

PROFESSIONAL GRADE ERGONOMIC SPRAY GUN

An ergonomic inverted trigger and cushioned grip make operation easy, even with extended use. (Most other pressure washers have a trigger design that requires "pinky pressure" to operate—often resulting in hand cramps after just a short time.)

50' STEEL-REINFORCED HOSE

Extra-long, steel-reinforced hose with quick-change connections make using this hose easy to use and extremely durable.

DR® 302cc OHV Engine

Easy-starting, horizontal-shaft (optimal for pressure washing) OHV engine provides plenty of power to drive

the pump at full capacity. Automatic low oil shutdown prevents accidental damage.

HEAVY DUTY TRIPLEX PUMP

Lasts up to 3X longer than direct drive triplex pumps. Brass head fittings and ceramic-coated stainless steel plunger.

5 NOZZLE TIPS INCLUDED

5 included nozzle tips (0°, 15°, 25°, 40°, Soap) cover every use, from a concentrated beam to deliver maximum PSI and cleaning power (0°), to a wide gentle setting for broadcasting and agitating detergent.

10" PNEUMATIC TIRES

Beefy pneumatic tires (10" x 4") are designed to ride over all types of uneven terrain so you can take the unit anywhere.
