Product Description

Mow Up to 5 Acres per Charge!

With a 60" mowing width and numerous professional features, the DR ZT5E Zero-Turn is your ticket to virtually maintenance-free lawn care. No more gas fumes, tune-ups, or messy refueling! Start out with a full charge and you can mow for up to 1.75 hours without stopping—enough to mow as much as 5 ACRES. Recharge overnight (110V Charger Included) and you're ready to go again the next day.

Powered by eSeries Battery Packs

DR's uniquely engineered battery packs (sold separately) are designed to function either independently or as a set that can be drawn on, or charged, as an interconnected array.

Powering a Smarter World

At DR Power Equipment "Powering a Smarter World" is core to our mission statement. We are fully committed to being a leader in applying new technologies to deliver sustainable, efficient, and lower-carbon solutions. Our product development teams are working hard on new and innovative products utilizing the latest battery technology. You can depend on DR to support our battery-electric technology for the long haul—starting with our 5-year warranty on our battery packs.

Product Summary

- 60" 3-Blade, Side-Discharge Cutting Deck
- Use with 1, 2, or 3 eSeries Battery Packs
- Runtimes up to 1.75 hours
- Cutting Heights: 1.5" to 5.25"
- Suspension Seat adjusts to operator's weight and height
- Interactive Touch Screen Controls
- Anti-Scalp Wheels (4)
- Transaxles: HydroGear ZT2800e
- Drive Wheels: 22" x 10.5"
- ROPS (Rollover Protection Structure)

Warranty Coverage

- Battery: 5 years or 1000 hours residential
- Download: Warranty Information

Features

Independent Wheel Drives The DR ZT5E uses a HydroGear beltless drivetrain with brushless electric motors to provide precise zero-turn performance.

Lap Bar Steering Commercial style steering bars are adjustable for rider comfort. Dampened for steady, straight-line mowing. Action becomes intuitive with just a little practice.

Interactive Touchscreen Has controls for blade speed and drive speed. Also displays battery charge level, operation status, hour meter, and service notifications.

Mid-Back Suspension Seat Includes armrests and adjustments that allow you to customize for your height and weight.

Blade Drives Each of the 3 mowing blades has its own dedicated brushless motor to ensure smooth operation and a high-quality cut.

3-Blade Mowing Deck with Side Discharge Fabricated, fully welded, 12-gauge steel. Each blade has its own beltless motor.

Foot Operated Height Adjustment Mow from 1.5" to 5" in ¼" increments, 15 settings

Turf Tread Tires 22" x 10.5"

2.5 kWh Battery Pack The ZT5E is powered with one, two, or three 48V batteries (sold separately). Each one is 2.5 kWh, meaning you can have up to 7.5 kWh. The power for mowing and self-propulsion is the same regardless of how many batteries are installed—the difference is in runtime. Recharge overnight in the mower.

Battery Dock Each battery seats securely under the rear hood, in its own port, ensuring optimal contact with receiver.

ROPS In the unlikely event of a roll over (Roll Over Protection Structure)
