Product Description

XD Commercial Series: 26" Cut & Kawasaki Engine

DR®'s XD Series Field & Brush Mowers are built to meet the demands of commercial users: frequent use, long runtimes, daily transport, and ease of maintenance.

The XD26 cuts 26" wide and features a proven Kawasaki FS481V engine that provides the power you need to mow all day long. Independent hydrostatic wheel drives ensure ease of handling without fatigue, built in hand guards protect the operator while mowing down tough brush, and trailering is fast and easy with integrated tie-down hooks.

Product Summary

- Kawasaki FS481V, 14.5 HP (603cc) OHV Engine
- Manual-Start
- Variable speed drive, forward and reverse with zero-turn radius ability
- 26" cutting deck
- Pivoting deck follows contours of ground
- Oil pump for superior performance on hills
- Handguards protect operator's hands from brush and briars
- Integrated tie-downs for ease of transport
- Tool-free drain hose for simple oil changes
- See Features and Specs Tabs for more product details

Warranty Coverage

- Machine: 2 years residential; 2 years commercial
- Engine: 3 years residential; 3 years commercial

Features

Commercial Duty Engine The Kawasaki FS481V V-Twin OHV engine delivers reliable, easy starting and fuel-

efficient performance. With 14.5 HP (603cc) it has plenty of power to churn through thick grass and brush. A Full pressure oil pump ensures smooth operation on slopes up to 20°. 49 State (not available in CA).

Independent Hydrostatic Wheel Drive Two independent hydrostatic wheel drives provide a zero-degree turning radius and virtually effortless maneuverability. Variable speed forward & reverse.

Independent Wheel Drive Levers Provides zero-degree turning radius & effortless maneuverability. Variable speed forward & reverse.

On-board Control Panel All primary controls located in one location. Integrated maintenance meter for tracking service intervals.

26" Wide Pivoting Deck Fully welded, 12-gauge brush deck enclosed on 3-sides for superior mulching. Pivots +/-5° to follow contours of ground. Heavy duty brush blade sharpened on both sides for 2X the blade life.

Custom-Made Blade Spindle Made of 1.375" thick cast iron with oversized double sealed bearings, the blade spindle is integrated into the deck housing and reinforced for vibration-free performance. Designed to provide years of maintenance-free use (and abuse!).

Integrated Tie-Downs 4 welded steel hooks (2 on each side of mower) provide secure anchor points for transportation.

Tool-Free Drain Hose Makes removing oil fast, neat, and easy. No tools needed, just uncap and drain.

Makes removing oil fast, neat, and easy. No tools needed, just uncap and drain.

Assembled in the USA Assembled in the USA using foreign and domestic parts. Ships direct from our Wisconsin factory.
