Product Description

Gravely OVIS X 40 Remote Controlled Slope Mower

SKU/Model: 949002

The **Gravely OVIS X 40** is a specialized remote-controlled mower engineered for safety and performance on extreme slopes. This machine allows operators to clear hazardous terrain and steep embankments (up to 55 degrees) from a safe distance, making it an essential tool for municipal and commercial landscape safety.

Product Specifications

- **Engine:** Vanguard® 40.0 Gross HP
- **Drive System:** Remote-Controlled Track Drive
- **Cutting Width:** 44" Flail Mower Head
- **Max Slope Angle:** 55 Degrees

Key Features & Benefits

- **Safety First:** Remote control operation keeps the operator away from potential rollovers and hazardous environments.
 - **Low Center of Gravity:** Designed with an ultra-low profile and wide tracks for unstoppable stability on steep inclines.
 - **High-Performance Flail:** Heavy-duty flail mower head mulches thick brush, tall grass, and saplings with ease.
 - **Bi-Directional Mowing:** Capable of mowing in both directions to minimize turning and maximize efficiency on hillsides.
-
